

Department of Paediatric Physiotherapy

MPT Unit Plan

May 2023

Aim: To cover basic understanding of embryological development of each system, typical and atypical development and cover synopsis for submission

DATE	Specific Objective	8-9	9-10	10-11	11-12	12-1	2-3	3-4	4-5	5-6.30	Topic Being addressed		
1.5.23		Holiday											
2.5.23	Describe developmental periods, explain the significance of embryology, Gestational age, describe embryologic development- 4 th to 8 th week and foetal development- 9 th to birth. Explain critical period of development	Library	Clinical Posting: Observe and understand the developmental trajectories in children with Developmental delay Exercise therapy class for II BPT on Tuesday, Wednesday, Friday and Saturday 11-1 Total clinical hours this week= 12				Synopsis related work in library EXCEPT WHEN PAPER I CLASSES ARE SCHEDULED		Seminar: Prerita Embryological development of MSk system		Library Read about embryological development about each system and its clinical implication.		Paper-II - 2a
3.5.23													
4.5.23							Synopsis related work in library EXCEPT WHEN PAPER I CLASSES ARE SCHEDULED		Seminar: Venus Embryological development of Cardio respiratory system				
5.5.23													
6.5.23	Synopsis related work in library EXCEPT WHEN PAPER I CLASSES ARE SCHEDULED		Seminar: Venus Embryological development of Cardio respiratory system										
7.5.23					Sunday								

Posting schedule:

Prerita: Community posting

Venus: Paediatric OPD and IPD

Anushree: OPD and IPD

Aim: To cover basic understanding of embryological development of each system, typical and atypical development and cover synopsis for submission

DATE	Specific Objective	8-9	9 - 10	10 -11	11 -12	12 - 1	2 - 3	3 - 4	4 - 5	5-6.30	Topic Being addressed
8.5.23	Post natal growth-	Library Read about critical period of growth in each domain of development	Take height, weight, BMI,HC and Interpret it according to WHO growth chart for boys and girls Exercise therapy class for II BPT on Monday, Tuesday, Wednesday, Friday 11-1 Total clinical hours this week= 16				Synopsis related work in library EXCEPT WHEN PAPER I CLASSES ARE SCHEDULED			Revision of all the embryological development and write an assignment of 2500 word on what are the diseases/dysfunctions/ disorders that we see commonly in India and what is the embryological basis	Paper -II-2b
9.5.23	Understand growth										
10.5.23	velocity, growth spurt, catch-up										
11.5.23	phase, critical period of										
12.5.23	development										
13.5.23											
14.5.23	Sunday										

Posting schedule:

Prerita: Community posting

Venus: Paediatric OPD and IPD

Anushree: OPD and IPD

Aim: To cover basic understanding of embryological development of each system, typical and atypical development and cover synopsis for submission

DATE	Specific Objective	8-9	9 - 10	10 - 11	11 - 12	12	2 - 3	3 - 4	4 - 5	5-6.30	Topic Being addressed
15.5.23	Understand t in detail - Gross	Library Theories of development and understand the typical development of a child in each domain	DO ASQ-3 and CDC on specific children to understand their developmental trajectories and write the inference. Exercise therapy class for II BPT on Monday, Tuesday, Wednesday, Friday 11-1 Total clinical hours this week= 16				Synopsis work EXCEPT WHEN PAPER I CLASSES ARE SCHEDULED		Seminar: Anushree Theories of development	Library: Growth and development	Paper-II 2C
16.5.23	motor, fine motor, Language, and personal								Seminar: Venus Typical Gross Motor development of a child from birth to 6 yrs of age		
17.5.23									Library		
18.5.23	social milestones ASQ-3, CDC and other tools								Seminar: Prerita Typical Fine motor Motor development of a child from birth to 6 yrs of age		
19.5.23									Seminar: Anushree Typical development of Language from birth to 6yrs of age		
20.5.23											
21.5.23	SUNDAY										

Posting schedule:

Prerita: Community posting

Venus: Paediatric OPD and IPD

Anushree: Paediatric OPD and IPD

DATE	Specific Objective	8-9	9 - 10	10 - 11	11 - 12	12 - 1	2 - 3	3 - 4	4 - 5	5-6.30	Topic Being addressed				
22.5.23	Analyse what are the red flags and atypical signs to be picked during growth process	Library Atypical development	Clinical posting to complete previous exercises Exercise therapy class for II BPT on Monday, Tuesday, Wednesday, Friday and Saturday 11-1 Total clinical hours this week= 20				Library for synopsis related Synopsis Test			Critically analyse the developmental trajectory in each domain and write down your interpretation about the individual case seen in OPD in 2000 words		Paper-II 2c			
23.5.23															
24.5.23							Posting to finish previous objective								
25.5.23															
26.5.23															
27.5.23															
28.5.23	Sunday														

Posting schedule:

Prerita: Community posting
