8.03 Report of actions taken on points that arise in the 7th governing council meeting

Resolution:Clinical services in the new hospital will commence shortly. The services that wehave suggested were approved.

Action Taken: Clinical staff appointed7 out of 8 reported. Cardiac rehab has started in a very small way. Women's health services have started as counseling and home programme due to lack of evaluation and treatment equipment. Pulmonary rehab is operating similarly. ICU's are being managed from 7AM to 8 PM (3 sessions)

In patient treatments in Orthopedic & Neurology are hindered due to the lack of dedicated support staff. Current management is not optimal. We need at least 3 support staff to help with patient transfers to and in the department&ICUs; equipment cleaning etc. the decision from administration is that in patients can be seen bedside. This is far from optimum and is a primitive understanding of the role of physiotherapy and rehabilitation.Request for transfer of 3 old hospital staff has been agreed in principle.

Basic equipments have been ordered and is awaited. Phase II needs to be procured (Cardiac rehab, pulmonary rehab, women's health equipment approx. budget Rs 30 lakhs and therapeutic furniture Rs 10 lakhs)
