

SUPPORTING LETTER FROM THE HEAD OF THE INSTITUTIONS

The college gives exposure to the students/interns with physiotherapy hands-on practice training in the following clinical set-ups

- OPD and IP ortho.
- Surgical and medicine ICUs.
- Plastic surgery and burns ward.
- Ortho, cardio and neuro wards.

Students from 2nd year to final year are posted in each of the above mentioned departments.

The roles and responsibilities along with rules and regulation are pre-formulated for each batch of students.

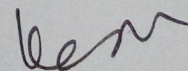

The 2nd year students are posted for observation only.

3rd year students are posted in the OPD of physiotherapy, the IPD of Orthopedics, General Surgery, General Medicine, Cardiology, pulmonology and ICUs.

4th year students are posted in OPD of Physiotherapy, department of Physical Medicine and Rehabilitation, IPD of Neurology and Neuro-Surgery with their respective ICUs

The 3rd and 4th year students are trained in patient assessment under the guidance of an intern, a clinical staff and a teaching staff who are also posted in the same department. The students are encouraged to build treatment protocol/guidelines for each case they assess. The cases are then discussed in detail in form of case presentation exercise.

And interns have complete exposure to all the departments where they are allowed to treat cases individually with complete assessment and plan of care.
